

About Us . . .

3D Virtual Design Technology is noted as a leader in the industry of 3D Laser Scanning and Building Information Modeling or *Scan to BIM*, servicing the Architectural, Engineering & Construction industries with high-quality 2D and 3D digital as-built surveys. As a certified Women’s Business Enterprise (WBE) and Woman Owned Small Business (WOSB), we recognize the commitment to supplier diversity that is embraced by corporations and government agencies today and can add diversity to your supply chain.

Our team consists of qualified architects, surveyors, designers and scan technicians with extensive knowledge and experience in architecture and measurement. We understand how to capture and interpret the 3D scan data to deliver an accurate, quality product from which our clients can begin their important design work with confidence. Above all, we are committed to working collaboratively with our clients to determine their needs, integrating our services into their project workflow.

3DVDT has an established, valued cliental throughout the San Francisco Bay Area, with a diverse portfolio we are proud to share:
